

Gondolin

Festuca rubra rubra

Strong Creeping Red Fescue

High Yield and Exeptional Persistence

- Very high yields
- High flexibility
- Fast spring growth
- Very winterhardy

High Flexibility

GONDOLIN offers high flexibility for forage use as it is successfully listed in climatic different countries like Denmark, Germany, Sweden, Switzerland and Austria.

Fast Spring Growth

GONDOLIN grows very fast in spring which makes it highly competitive with other early spring growing grass species.

Winterhardiness

GONDOLIN has proven a very good winterhardiness under extreme climatic conditions in both Germany and Austria.

Tough Competitor to Weeds

GONDOLIN is strong developing rhizomes which results in a dense and weed-free grass sward.

Disease Resistance

GONDOLIN has proved a very good resistance to Crown Rust and a good resistance to other common diseases in grasses.
